

Critical Issues In Youth Work Management

'I really welcome this as the first book to provide a comprehensive and searching analysis of the management context of youth work. Jon and his colleagues explain clearly and explore in depth a range of management perspectives... Their critical management theory of youth work is fruitfully applied in specific chapters to several key subjects like supervision and evaluation. It will be especially suitable for final year undergraduates, postgraduates, practitioners and managers who welcome sharp thinking and challenge.'

Mary Tyler, Principal Lecturer, Youth, Community and Education, De Montfort University, UK

This valuable textbook communicates the complexities and controversies at the heart of youth work management, exploring key issues in a critical fashion. Written by a team of experienced youth work lecturers, the chapters cover topics such as planning, evaluation and supervision, whilst acknowledging the changing structures of integrated services and the impact of public service reform.

Divided into three sections, it covers:

- historical and theoretical context;
- critical practice issues, including leadership, policy constraints, planning and accountability;
- managing in different settings, for instance, integrated services and the voluntary sector.

Aimed at both youth work students studying for their professional qualification, as well as practising managers, *Critical Issues in Youth Work Management* encourages critical thinking about what management in youth work is and what it can be. It includes reflective questions and further reading, and case studies are integrated throughout.

Jon Ord is Reader in Youth and Community Work at UCP Marjon, Plymouth, UK. He has worked as a youth worker for twenty years, and is the author of *Youth Work Process, Product and Practice*, as well as a number of articles concerning the theory and practice of youth work.
