

Getting Started: A Resource Guide For Establishing School Councils Working Document

Planting the Seed for Healthy Eating!

Our school community would like to start a garden to get students excited about healthy eating. A school garden can provide students the opportunity to:

- learn the knowledge and skills they need to make healthy food choices.
- understand how food is grown and appreciate fresh vegetables and fruit.
- apply classroom learnings from a variety of subjects in a creative way.
- enhance their leadership and teamwork skills.
- bring the entire school community together to do a fun project.

To make our garden a success, we are looking for support from our school community. If you would like to learn about how you can help, please contact the school for more information. Also, please visit durham.ca/healthyeating to download your copy of "A Guide to School Gardens" to get started today!
