

Philosophy Of Education Since Mid-century

The School System in Japan

■ Change from a dual system to a single-track school system

- Change from dual system before World War II to single-track school system after that;
- 6-3 school system

■ Change from single-track school system to dual system

- The system of colleges of technology (the levels of upper secondary education + lower higher education)
- Secondary school system (the levels of lower secondary education as compulsory education + upper secondary education as non-compulsory education)

■ Primarily legitimated and collateral education

- Schools defined in Article 1 of the School Education Act as primarily legitimated schools (Eight school types are prescribed in Article 1 of the School Education Act: kindergartens, elementary schools, lower secondary schools, upper secondary schools, six-year secondary schools, schools for special needs education, universities, and colleges of technology)
- Specialized training colleges and miscellaneous schools as "collateral" education

■ Increasing elasticity and flexibility of education in a life-long learning society

- Cooperation and interaction between school and out-of-school education
- Dissolution of uniformity and closeness in school systems
