

# Work In Later Life: A Plea For Flexible Retirement

**Congressional Voting Record**  
114<sup>th</sup> Congress, 2<sup>nd</sup> Session  
January 2016—December 2016

This past year Congress continued the unproductive ways of the last several Congresses, especially in areas that affect retirees. As America ages, issues like retirement security, the declining availability of guaranteed pensions and threats to the Social Security, Medicare, and Medicaid systems continue. The nation deserves better.

Many in Congress continued to attack our core retiree programs of Social Security, Medicare, and Medicaid as well as the pro-retiree provisions of the 2010 Affordable Care Act. Many in Congress continue to support efforts to privatize Medicare and create a voucher-like system in its place. Many, too, continue to push to turn Medicaid into a block grant system, which would undercut its ability to provide care for millions of older Americans. Key positions like Commissioner of Social Security continue to remain without a confirmed nominee in office.

In contrast, while attacks on core retiree programs continued, income inequality grows larger. Proposals to raise the minimum wage failed in Congress. For more than a decade, the wealthiest Americans have received trillions in tax breaks while older Americans have seen rising drug, health care, food, and energy costs.

It is up to us to advocate for those issues on which older Americans depend for a respectable quality of life in retirement.

This Voting Record reflects how committed our elected representatives are to retirees and older Americans. Use it to educate yourself on where your elected representatives stand. Get active today and help create an America that protects the health and economic security of seniors, strengthens families and builds safe and thriving communities.
